

CLAIMS

What is claimed is:

1. A method for electronic ticket recognition and acceptance, comprising the steps of:

facilitating a purchase of an electronic ticket from a networked ticketing computer;

downloading the electronic ticket to a portable computing device having a data output;

enabling activation of the electronic ticket to communicate the electronic ticket via the data output, wherein the electronic ticket is optically communicated to a ticket receiving unit.

2. A method as in claim 1, further comprising the step of using a video display output as a data output.

3. A method as in claim 2, further comprising the step of displaying the electronic ticket on the video display output in the visual form of a bar code that is optically scannable by a ticket receiving unit.

4. A method as in claim 1, further comprising the step of downloading the electronic ticket to the portable computing device using a wireless communication link.

5. A method as in claim 1, further comprising the step of downloading the electronic ticket to the portable computing device using a wireless modem.

6. A method as in claim 1, further comprising the step of purchasing the electronic ticket from the networked ticket computer via the Internet.

7. A method as in claim 1, further comprising the step of optically communicating the electronic ticket to the ticket receiving unit using an infrared communication link.

8. A method as in claim 1, further comprising the step of applying security features to the electronic ticket in order to avoid ticket counterfeiting.

9. A method for electronic ticket recognition and acceptance for a ticketed event, comprising the steps of:

facilitating a purchase of an electronic ticket from a networked ticketing computer;

enabling downloading of the electronic ticket to a portable computing device having a visual display output;

accepting the electronic ticket by optical communication with a ticket receiving unit; and

providing entry to the ticketed event after the electronic ticket has been accepted.

10. A method as in claim 9, wherein the accepting step further comprises the step of activating the electronic ticket by displaying the electronic ticket on the visual display output.

12. A method as in claim 9, further comprising the step of displaying the electronic ticket on the display output with a bar code that is optically scannable by a ticket receiving unit.

facilitating purchasing of an electronic ticket from a networked
ticketing computer;

accepting the electronic ticket by optical communication with a ticket receiving unit;

14. A method as in claim 13 wherein the step of providing amenities further comprises the step of providing a discount for concession items available at the ticketed event via a ticket receiving unit.

15. A method as in claim 13 wherein the step of providing amenities further comprises the step of providing an event map via remote communication wherein the electronic ticket allows the event map to be downloaded and activated.

16. A method as in claim 13 wherein the step of providing amenities further comprises the step of providing directions to a person's seat at the ticketed event using the electronic ticket.

17. A method as in claim 13 wherein the step of providing amenities further comprises the step of providing directions to a person's seat at the ticketed event based on a location of a ticket receiving unit where the person entered the ticketed event.

18. A method as in claim 13 wherein the step of providing amenities further comprises the step of providing an electronic event program via remote communication, wherein the electronic ticket allows the electronic event program to be downloaded and viewed.
